15. Race Start Procedure

Standing start: The start procedure will commence from the assembly area, with the boards being shown to the field, the green flag will then be waved to signify the start of the green flag lap. Cars should proceed around the track passing over the grid the first time without stopping, the next time they arrive at the grid at the end of the next lap marshals will be present to show you to your grid slots (please approach slowly and be prepared to stop). When the grid is complete, the 5-second board will be displayed before the red lights are illuminated. The race starts when the red lights are extinguished.

Rolling start: The start procedure will commence from the assembly area, with the boards being shown to the field, the green flag will then be waved to signify the start of the green flag lap, cars should proceed around the track behind the safety car. The safety car will enter the pit lane, and the pole sitter will maintain a constant speed up to the start line, where the red lights will be illuminated. The race starts when the red lights are extinguished.
