Bulletin 1 – U2TC Pit Stop Window

For both U2TC races, the pit stop window will open 10 minutes into the race and will close 30 minutes into the race. Any further changes will be communicated as soon as possible. For the avoidance of doubt, the competing car must not cross the timing line at pit lane entry before 09:59 after the race start or after 29.59 after the race start for it to count as a pit stop within the pit stop window.
