**MSVT**  
MOTORSPORT VISION TRACKDAYS

2026 SEASON

# MIATA ミアタ TROPHY

Miata Trophy officially joined the UK club racing scene in 2023, as a championship for ND (mk4) and NC (mk3) MX-5s to compete together, and has quickly established itself as one of the most competitive championships in the country!

The ND Miata Trophy MX-5 comes fresh off the back of its developmental season and is a full spec racing car, guaranteeing all cars are equal, reliable, and competitive. Miata Trophy promotes driving excellence, sportsmanship, and car control in the absence of vehicle and technical development.

Rounds will be live streamed via the MSVT Racing YouTube channel, allowing drivers, teams, and family, instant and direct access to all the on-track action and interviews as they happen, regardless of timetables, and without prohibitive TV costs.

Miata Trophy is promoted by MotorSport Vision Trackdays (MSVT), the team behind a well-subscribed and award-winning portfolio including: Trackday Trophy, Trackday Championship, and EnduroKA, and operated by sister organisation MotorSport Vision Racing (MSVR).

**Chassis**

Mazda MX-5 ND convertible chassis, with Safety Devices roll cage.

Suspension: GAZ GHA Coilovers

Whiteline anti roll bars

Front: BMF65Z

Rear: BMR94Z

Powerflex bushes
