## TECH TALK

### DESCRIPTION

The NASCAR Euro Series is the only NASCAR series outside of the Americas, bringing Ford Mustangs, Chevrolet Camaros and Toyota Camrys to Europe's best race tracks.

### SPECIFICATION

Chassis: tubular steel frame  
 Engine: 5.7l V8, over 400hp  
 Gearbox: manual, 4-gear. H-pattern or sequential command  
 No electronic-aids

### CLASSES

There are two separate championships, the PRO Championship and OPEN Championship. The PRO Championship is raced in by professional drivers. The OPEN Championship is for young drivers and gentleman drivers. Two drivers share each car.

### SUB-CLASSES

**V8GP Junior Trophy** - Age 25 and under  
**V8GP Challenger Trophy** - Elite Amateurs  
**OPEN Master Trophy** - Newcomers and gentleman drivers  
**OPEN Legend Trophy** - Age 45 and over  
**OPEN Lady Trophy** - Female drivers

### 2026 CALENDAR

18/19 April Valencia, Spain  
 23/24 May Paul Ricard, France  
**7/8 June Brands Hatch, UK**  
 29/30 August Most, Czech Republic  
 19/20 September Vallenga, Italy  
 17/18 October Zolder, Belgium

## TECH TALK

### DESCRIPTION

Legends Cars are 5/8 scale racers based on 1930s Ford and Chevrolet body styles. The cars are powered by either the MT09 water-cooled, three-cylinder Yamaha motorcycle engine or the 1250cc air-cooled Yamaha powerplant. Along with the main championship and Elite Cup, there are classes for Rookies, Masters (drivers in the year of their 40th birthday) and Team Car (a car shared by at least two drivers during the season).

### APPROX. COSTS

Base car - £20,000 +VAT  
 Full season estimate - £20,000 to £30,000

### POINTS & REWARDS

Each day (round) features two Heats and a Final, with points scored in each contest. The highest scoring drivers from the Heats start at the back of the grid in the respective day's Final. Points are awarded on the basis 200-185-170-160-150-140 etc down to 20 points for 18th place. Awards are presented to the top three drivers in each Final. The highest scoring driver each day is considered the winner of that 'round'. There are also Driver and Team of the Day awards.

## HOW IT WORKS?

There are two classes in Ford Vs Chevy that reflect speed categories - taking into account experience car specification and modification level:

- Group 1
- Group 2

Points are going to be awarded across various criteria and this is a great opportunity for our spectators and followers to get involved too.

- Qualification - Fastest car of each Group will receive 30 points
- Race Finish - 1st position will win 30 points working through to last position earning 1 point
- Fastest Lap - Fastest Lap of each group will receive 15 points

Here is where we need YOUR support. Come down to our Bernie's V8s Marquee in the paddock to Vote for your fan's favourite to earn more points!

- Best Sounding Car
- Best Presented Car
- Kids Choice award (under 12s only please)

Once the second race is over we will be tallying the points and our Event Commentator will announce the winners.

## TECH TALK

### SPEEDFEST SILHOUETTES DESCRIPTION

Competitors compete in spaceframe silhouette saloon and sports cars. They use a 2 litre normally aspirated engine from either Ford or Vauxhall. There is a choice of gearboxes either H pattern (where the car must weigh at least 855 kgs) or sequential (where the minimum weight is 870 kgs). There is a limitation on the number of Hoosier racing tyres that the drivers can use. To encourage older drivers there is a class for those aged 55 and over.

For their second race the grid is semi reversed from the finishing positions of the first race. This guarantees plenty of overtaking.

### APPROX. COSTS

New cars cost around £35,000, with second hand models around £25,000. A season's racing is roughly £10,000 with two races at each of the six meetings. There is an incentive for drivers who compete regularly, as they will receive a discount voucher to be taken off their next entry fee courtesy of CNC Consultants

## TECH TALK

### DESCRIPTION

The Pickup Truck Racing Championship is a successful series for identical Pickup-style racers with powerful race engines.

### SPECIFICATION

Identical purpose-built racing Pickups produced by SHP Engineering, with a choice of engines: Vauxhall 2-litre or 2.3-litre controlled components Ford or Vauxhall.

### POINTS & REWARDS

Points are awarded on the basis of 200 for a race win, reducing by 10 points for each position down to 19th place. All other finishers get 20 points. Each race winner gets a trophy and the overall top three in the championship also receive trophies.
