8. SCRUTINEERING

All competitors must ensure that their vehicle and PPE complies with the relevant Motorsport UK National Competition Rules.

In accordance with NCR Ch.12 App.4 Art.4.1, a minimum of 25% of vehicles and drivers' PPE will be physically inspected by a Motorsport UK scrutineer at each event. These cars will be pre-selected by the scrutineers to ensure that every car/competitor is seen at least once every four race events that it competes in. The time slot for these checks can be found on the event timetable.

Visual scrutineering will be conducted on all competing vehicles just before noise testing at the entrance of the assembly area (Super Tourer Noise testing will be on the pit apron in front of their garage). Scrutineers will have the power to perform random spot-checks on both cars and drivers' equipment throughout the event.

Any guest championships/series will need to make MSVR aware in advance of the event if they wish to have their grid checked in its entirety by a scrutineer.

If you are unsure of your vehicle's ability to meet the required safety criteria set out in the Motorsport UK National Competition Rules, then please find a Scrutineer and ask them to check this for you. If your car hasn't been checked within the past three events, please seek out a scrutineer to make them aware. Allow plenty of time before your first session on track.

9. ELIGIBILITY

Eligibility may be checked by a member of the Motorsport UK Technical Commission. These Technical Commissioners will be considered as Judges of Fact within the Regulations. The Championship/Series licensed Eligibility Scrutineers are also considered Judges of Fact and empowered to undertake any measurements or examinations of vehicles.

Competitors must make their Clerk of the Course aware if it is their first time racing at the venue, this can be done at the end of the drivers briefing.

The organisers reserve the right to call extra briefings as appropriate. Attendance of the drivers briefing is mandatory.

12. ENGINE/NOISE POLLUTION

Competitors should not follow the course car into the pit lane and continue on track. Late arrivals in the Assembly Area may be directed through the paddock to join the Pit Lane by the road adjacent to Race Control.

The Assembly Area is on the left-hand side of the Melbourne Loop, which is accessed from the paddock at the base of the hairpin, near the circuit office. Please make yourself familiar with the location before your first practice session.

15. RACE START PROCEDURE

All competitors will assemble in the Assembly Area 20 minutes prior to the start of their session. The countdown will take place in the assembly area with competitors being shown the start

boards from here. At the end of the countdown the green flag will be waved to signal the start of the green flag lap. All cars will proceed directly to the track (rolling starts behind the safety car).

Cars will NOT stop on the grid on the first time they cross it.

For standing starts, when approaching the grid for the second time, marshals will be in position to show them to their starting location. For rolling starts, the normal starting procedure will take place.

For standing starts Unless Championship/Series Regulations state otherwise the Red Lights will be switched on 5 seconds after the '5 second' board is shown and will be switched off after 2 to 6 seconds, which will indicate the start of the race.

If the delay from the showing of the Green Flag signalling the start of the formation lap to the start of the race is more than three minutes the organisers reserve the right to reduce the race distance.

In all cases, countdowns will be in accordance with series/championship regulations.

Rolling Starts: Equipe Sports Racing Cars, Equipe 70's

At this event infringements of 'track limits' as defined by NCR Ch.12 App.7 Art.1.6 can be detected by an automatic system that will identify the offending car and produce a photograph of the infringement.

The above mechanism for such infringements does not preclude from marshals, officials and Judges of Fact from reporting infringements.

21. CONTROL FLAGS

Control Flags: Control flags (Black/White, Black/Orange etc.) with car numbers may be shown from the control line on drivers' left at the line.

The same information may also be shown from electronic panels displayed alongside the start lights in addition to or as an alternative to the flags on the line.

Cars in the garages may return to their garages unless otherwise instructed by officials.

All competitors will remain under Parc Fermé conditions until advised by the Scrutineers.

For races of time duration, the Chequered Flag will be shown to the race leader the first time he passes the finish line after the time has elapsed unless specified otherwise in Championship/Series regulations.
